

**UPDATE March 26:**

A total of 290 coronavirus cases have been confirmed in Lithuania on Thursday.

A total of samples tested in relation to the suspected coronavirus to date: 4 320

Four patients have died from COVID-19 and one has recovered.

A total of 545 medics are now self-isolating in Lithuania, mainly in Vilnius County, because of contact with a suspected or confirmed coronavirus case,

A shipment of 300,000 reagents used for coronavirus tests was delivered to Lithuania from China on Thursday night. The reagents will be distributed among laboratories across the country.

Three people have died of the coronavirus in Ukmerge, and eight medics from the local hospital have tested positive. The majority of its staff members are now in self-isolation. A government committee on Thursday decided against introducing restrictions on movement in the coronavirus-affected municipality of Ukmerge but called on residents to refrain from unnecessary trips.
