

UPDATE March 29:

Number of confirmed coronavirus cases in Lithuania: 460

A total of 9,891 tests have been carried out, including 1,467 on Sunday.

The ministry also said on Sunday that from now on everyone who develops symptoms of an acute respiratory infection would be tested for the new coronavirus.

Seven people have so far died of the coronavirus in Lithuania and one person has recovered.

Intersurgical, a Lithuanian manufacturer and supplier of medical devices, will produce 1 million respirators for the country's medical workers.
