

**UPDATE April 30:**

Number of confirmed coronavirus cases in Lithuania: 1385\*

Deaths: 45

Recovered: 589

Number of tests performed yesterday: 7 354

A total of samples tested in relation to the suspected coronavirus to date: 125 555

\*The number of confirmed infection cases. Until 28 April, information has been provided on positive laboratory test results rather than on positive cases (people).

The latest cases have been established at a nursing home in Antaviliai on the outskirts of Vilnius where 11 residents and four staff members have tested positive for the coronavirus. Also, 22 patients and five staff members have been found to have the virus at a nursing home in the town of Kartena in the western district of Kretinga.

Lithuania's police will step up patrols in the country's resorts and at cemeteries to ensure compliance with the existing quarantine conditions over the upcoming long weekend. Officers will ensure that people stick to the requirement to wear masks and keep a safe distance and do not gather in parks
