Deaths: 63

Recovered: 1138

Number of tests performed yesterday: 2837

A total of samples tested in relation to the suspected coronavirus to date: 267 719

*The number of confirmed infection cases. Until 28 April, information has been provided on positive laboratory test results rather than on positive cases (people).

19 new coronavirus cases have been confirmed over the past weekend, mainly in Vilnius. Six new cases are linked to Vilnius City Clinical Hospital, and three others are linked to Santara Clinics. Two cases were confirmed at the National Cancer Institute, and one was recorded at the block of flats in Pergales St in the Naujoji Vilnia area. Another case is also linked to the residential care home in Antaviliai near Vilnius. Two imported cases were also recorded over the weekend as people returned from Russia and Finland.

On Saturday, Lithuania recorded another coronavirus death after an elderly man from the west of the country, died at Klaipeda University Hospital. He had underlying issues and became Lithuania's 63rd fatality.
