Future of Ukraine

# Lithuania: Open for Cooperation in Reconstruction and Recovery of Ukraine

Rebuilding Ukraine, we are building much more than just one country. We are shaping the world as it will be for our generation and beyond.

Volodymyr Zelenskyi

Ukraine Recovery Conference, 21 June 2023 - London, UK

## Together we can co-create the future of Ukraine!

Ukrainians are already rebuilding their country, and Lithuania advocates that like-minded partners support their efforts in reconstructing critical and socially sensitive infrastructure now. To demonstrate its commitment, Lithuania was one of the first countries to start reconstruction projects on the ground and has significantly strengthened its organizational capacities to develop and manage more initiatives in the future. We want to leverage our experience and invite public and private actors to reach out with ideas for joint efforts in Ukraine.

### 1 billion

in aid by June 2023 - Lithuania is 3d largest contributor worldwide as a percentage of GDP

### First 4

reconstruction projects started by Lithuania in August 2022

### 4th

Lithuania among OECD countries in terms of the number of hosted refugees per capita

The reconstruction of Ukraine must start now, where and how it is possible. The longer we wait – the bigger the bill will be.

#### Damage

Quantifies direct physical damage to infrastructure and buildings

\$135 B

#### Recovery and reconstruction needs

Estimates needs considering building back better

\$411 B

## Construction of the mobile residential settlement in Borodyanka

**Beneficiary:** Borodyanka District Administration

**Budget:** ~1 million EUR

**Timeframe:** completed in March 2023

**Capacity:** 36 families

## What's next?

Lithuania is eager to work with the reconstruction projects that will directly and immediately affect the life quality of Ukrainian people. In close consultations with our Ukrainian partners, we are constantly working on projects' pipeline for implementation with other international partners. Currently, we are curious to explore partnerships in the fields of energy, critical and socially sensitive infrastructure, education, rehabilitation, and reintegration of veterans.

## Why partner with us?

We understand the operational and cultural environment, which is especially crucial in current efforts, where speed and direct contacts are in high demand. Our institutional set-up has been crafted to manage and deliver complex (combining both "hard" and "soft" components) international initiatives.

### Lithuanian Embassy in Ukraine

- contact point & solid political support;
- well-established connections with Ukrainian authorities, private and non-governmental actors

### Central Project Management Agency

- active in UA since 2014;
- portfolio worth 100 m Eur;
- long-term experience managing the EU and international donors' programs;
- presence on the ground

### Fund for the Development Cooperation and Humanitarian Aid

- accepts (earmarked) donations from international partners;
- allows joint programming and management of joint initiatives;
- flexibility needed for war-related circumstances
